# A World Class Procurement System

Procurement is more than just purchasing goods and services for an organization. An effective procurement process involves an in-depth understanding of requirements by all stakeholders, matching the right supplier for meeting those requirements, periodically evaluating supplier performance, and negotiating contracts that can provide the highest value at minimum cost.

At C19GS, we've taken steps to completely eliminate the fear and distrust of using an online marketplace:

- Requiring the proper documentation and processes (NCNDA, ICPO, LOI, LOA, KYC, IMFPA, RWA, SGS, SPA)
- Doing our due diligence to confirm buyers/brokers are not blacklisted and are rated based on track record, responsiveness, efficiency and effectiveness
- Inspection of product
- Verifying proof of funds/cage codes

# Find the right buyers through a custom secure network

We support your organization by building custom secure network that make a connection, whether you're using it for a single product listing or hundreds.

Through registrations, confidentiality agreements and due diligence, you'll protect yourself and your buyer—only those who **YOU** authorize will have access to your site. And, through advanced tracking and reporting, you'll narrow in on the right buyers.

# Keeping your information safe

Using advanced blockchain technology, COVID-19 Global Supplies is able to remove all risk and uncertainty.

So, exactly how does blockchain, specifically private blockchain, keep your information safe? Private blockchains use identity to confirm membership and access privileges and only permit known, verified organizations to join. Together, the organizations form a private, members-only “business network.” A private blockchain in a permissioned network achieves consensus through a process called “selective endorsement,” where known users verify the transactions. Only members with special access and permissions can maintain the transaction ledger. This network type requires more identity and access controls.

This is why you can have complete confidence each transaction is safe and secure—so you can focus on your business.

# FREQUENTLY ASKED QUESTIONS:

Q. How do I join the C19GS Marketplace?

A: Visit [https://www.covid19globalsupplies.com/?page\\_id=4624](https://www.covid19globalsupplies.com/?page_id=4624) and click Sign up.

Q: Once approved, how do I start selling/requesting product?

A: If you are approved as a seller, you will register and integrate your items and fulfillment system with C19GS. Once you are ready to go live, your items will be made visible to customers.

If you are approved as a buyer/broker/financier, you will register and provide the necessary documentation. Once this step is completed and confirmed, you may begin posting opportunities.

Q: How do I build a Deal Team?

A: After you have posted your opportunity, you can now review the prospects that arise from our advanced matching algorithm. You will then choose the team that best meets your needs.

Q: What happens after my Deal Team closes a deal?

A: After you have successfully closed a deal, it's time for a deal and pipeline review. By reviewing each step that was taken throughout the transaction, you will have the opportunity to identify what worked, what didn't and why so that future deals will run even smoother.
